

MOTA[®] SMARTWATCH

Thank you for your purchase of MOTA[®] SmartWatch. For any questions, you may reach MOTA[®] support via www.mota.com/support/

FUNCTION OVERVIEW

CHARGING

MOTA[®] SmartWatch comes with a built-in rechargeable battery. Before the first use, please charge your SmartWatch fully for approximately 2 hours.

How to Charge

To begin charging, insert the charging cable into the SmartWatch and connect the other end to your computer's USB port or other USB power source (such as USB wall adapter).

The charging port is a 3.5 mm standard two-in-one, which can be used for charging, or using a headphone to listen to audio from the SmartWatch.

Charging Time

Charging time is approximately 2 hours. When your SmartWatch is finished charging, the battery symbol on the screen will indicate full.

Charge Indication

When charging, the number of power grids displayed on the Screen will increase until SmartWatch is fully charged.

Stand-by Time

The stand-by time is approximately 72 hours.

Note: Vibrating and screen display usage will affect the stand-by time.

Low Battery Notification

When the battery level is low, "Low Battery" will be displayed on the screen.

POWER

Power ON: Press and hold the power button (A) for 3 seconds, until "Power on" is displayed.

Power OFF: Press and hold the power button (A) for 3 seconds, until "Power off" is displayed.

SET TIME

With SmartWatch in power on status, press button (B) for 3 seconds in order to set the time. The hour digits will begin flashing.

Continue pressing (A) until the desired hour is shown. Press (B) to advance to set the minute.

Continue pressing (A) until the desired minute is shown.

Press button (B) to save and exit time setting.
